

With the summer months almost here, it's a great opportunity to enrol your child in swimming lessons and in the Huntly area, there are fantastic options being delivered at the Huntly Aquatic Centre.

Belgravia Leisure deliver a quality Learn to Swim programme, teaching children the fundamentals of swimming and watersafety. And once the children have mastered the key elements of the Learn to Swim programme, the Huntly Swimming Club offers a family focussed training programme for swimmers wanting to improve their fitness, compete for their school or Region, and all levels in between.

The contact details for the Learn to Swim and Club programmes are detailed below. If you've been thinking about giving your child the opportunity to master this important life skill, now is a great time. Both the Club and LTS programmes have got room for more swimmers and the coaches and swim teachers are available after school most days to assess your child to ensure they start at the level that's right for them.
